

# Deepdene House

A community-based specialist residential service for adults with complex and difficult to manage mental health needs

# DeepdeneCare

Delivering support and rehabilitation to those often reluctant to engage in therapeutic programs, Deepdene House is a progressive and vibrant service at the heart of the community.

# Deepdene House

Deepdene House is a specialised residential service for 20 adults experiencing high and complex mental health needs, who are often difficult to engage with and require intensive support and interaction. Located at the hub of the community in Streatham, South London, Deepdene House offers access to a variety of local services and amenities as well as all the benefits of a central London location.

Deepdene Care, an established national mental healthcare provider, has operated the service since its formation in 1987 and has continued to build on the reputation of Deepdene House. With services now operating throughout the UK, Deepdene Care has developed strong and stable compliance, governance and central support frameworks which Deepdene House benefits from.

Those living at Deepdene House often exhibit high and complex mental health needs including severe and enduring mental illnesses, challenging behaviour, and drug or alcohol dependency. We are well equipped to accommodate those who exhibit behaviours such as self-harm and those with a dual diagnosis.

## Individual care

Deepdene House provides an environment where social integration is encouraged, and our service users are able to recover in a safe and comfortable setting. With the focus on rehabilitation, care and support programs are tailored to take account of individual residents' needs and always reflect individual choice. Our excellent community links enable us to maximise opportunities for social inclusion and take advantage of activities offered in the area.

Led by a skilled leadership team, the care staff provide 24-hour support to our residents in daily life as well as activities.

Our service delivery is based upon inclusion and the provision of person-centred care and sensitive treatment for individuals. It is aimed at improving mental and physical health, reducing and eliminating inappropriate behaviour and risks and replacing them with appropriate patterns of coping, problem solving and improved personal and social skills.

We develop partnerships with each individual resident and focus on their recovery through the formulation of individualised pathways of care that focus on their strengths and aspirations, empowering each individual to engage in positive risk taking in their care and rehabilitation program.

## Positive outcomes

We recognise that each resident is an individual in their own right with their own specific and often complex needs. Our goal is to offer the range of support needed to enable the individual to work towards achieving the most positive outcome for them, whether this is a return to independent living and employment, or to a supported environment where they can access all the services the community has to offer.

## What we offer:

We offer people over the age of 18 years old a chance to live in a community and take control of their lives through intensive support from our well-trained team. Residents are integral in their own recovery in which we support them in medication therapy if required, meaningful daily skills development and community integration. By providing a range of enjoyable activities individually and in groups within the home and the community, this helps to promote independence and purpose. The progress is measured through health and social care outcomes, which matter most to residents, carers and regulatory bodies.

## For our Residents:

- An opportunity to live in a homely environment and develop independence.
- Staff team who can understand your difficulties, work with you and incorporate your views and wishes when making decisions about you.
- To support you to achieve independence through education, vocational training and voluntary work experience placements.
- The opportunity to take part in resident meetings and internal surveys so your views can be heard and listened to.
- Sign posting to advocacy services that will support you to represent your views if required.
- A range of professionals who can provide information and support you to manage your mental health problems and difficulties.

## For Families:

- A staff team who you can trust and have regular contact with.
- A consistent group of professionals who are with you throughout the journey of your family member.
- Involvement in your family member's care and all views to be taken on board. Support to maintain and improve the relationship with your family member.
- To support you to understand your family member's difficulties and any treatment that they are receiving.
- Confidence that the staff looking after your family member are well trained
- Family/carers are made to feel welcome when visiting the home.
- Feedback questionnaires/surveys are made readily available to obtain views from family members.

## For Commissioners:

- Bespoke package of care to meet the individuals' complex mental health and social care needs
- Consistency of care through in house mental health team.
- Experience and expertise of the mental health team ensuring reduction in hospital admissions.
- Recovery and Quality assurance through outcomes.
- 24 hours home management on call to provide crisis management.
- Staff competent and trained in their roles

# Referrals

**At Deepdene Care we welcome referrals from all areas of mental health care and are committed to making this process as unobtrusive and stress free as possible.**

The referral process is reactive and easy to use, with a direct line to our dedicated referral team.

Following a referral a senior member of our multi-disciplinary team will arrange to carry out a full assessment within 24 hours at a time and venue that best suits the individual's need.

After this assessment, our multi-disciplinary team will review the case, and if suitable, a placement offer and full breakdown of costs will be sent to the referring agency within seven working days.

Once the placement is agreed we will work closely with the individual and their care team to ensure a smooth and successful transition.

If you would like to arrange an informal visit, please contact us on our referral line:
